# What have pupils said in the past?

I decided to study full course Welsh because I enjoyed it in year 9.

I was interested in other subjects so decided to take short course Welsh.

I wanted to develop a greater degree of fluency and understanding.

In my opinion studying full course will improve my career prospects.

"The percentage of pupils who achieve A\*-C on the short course has increased in recent years, but these results compare poorly with pupils' achievement in the full course."
